NanoLam™

A perfect blend of function and form, style and design.

NanoLam is the latest micro technology lamination, offering maximum performance and style. The super-opaque surface is velvety soft to the touch and resists fingerprints, smudges, scratches, mold, and bacteria. NanoLam has an intrinsic thermal healing process that makes small abrasions easy to remove with a magic eraser or heated iron. Finishes come in a range of colors with matching edgebanding.

Highly resistant to scratches, abrasion, rubbing and dry heat. Withstands impacts, acid-based solvents and household agents.

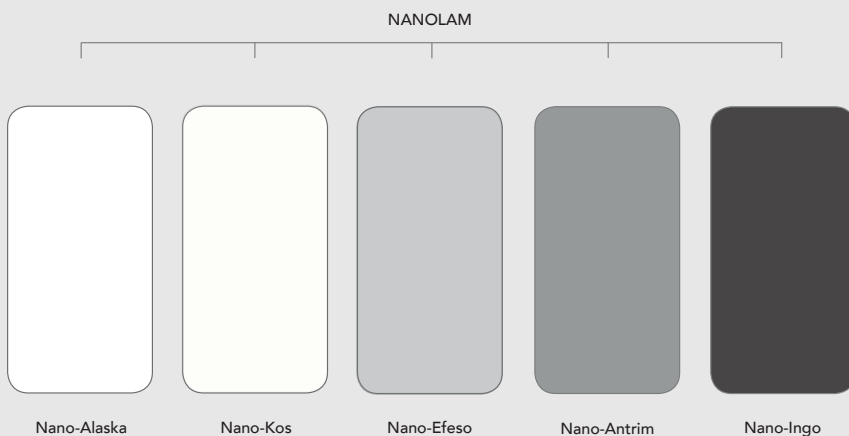

Velvety soft to the touch, the super-opaque matte nanotech surface is a perfect blend of elegance and style.

Liquid repellent and mold-proof. NanoLam significantly reduces the bacterial load, making its surface hygienic and easy to clean.

Innovative properties combine to enable the healing and removal of micro-scratches through the use of heat or a magic eraser.
